You are receiving the following email copy due to your co-authorship of gmd-2021-289. The original message was sent to the contact author. Please contact us in case of any discrepancies.

Dear Ivette Hernandez Banos,

We are pleased to inform you that the Topical Editor report for the following GMD manuscript is now available:

gmd-2021-289

Title: Assessment of the data assimilation framework for the Rapid Refresh Forecast System v0.1 and impacts on forecasts of a convective storm case study

Author(s): Ivette H. Banos et al.

MS type: Model evaluation paper

Iteration: Minor revision

The Topical Editor has decided that minor revisions are necessary before the manuscript can be accepted. Please log in using your Copernicus Office user ID to find the Topical Editor report at: https://editor.copernicus.org/GMD/ms_records/gmd-2021-289

We kindly ask you to revise your manuscript accordingly and to upload the revised files, a point-by-point reply to the comments, and a marked-up manuscript version showing the changes made no later than 16 Apr 2022 at: <https://editor.copernicus.org/GMD/review-file-upload/gmd-2021-289>

Please find all information on manuscript submission at: https://www.geoscientific-model-development.net/for_authors/submit_your_manuscript.html

Your revised manuscript will be reviewed again and you will be informed about the outcome by separate email.

Besides adjustments requested by the Topical Editor or Referees, please check your manuscript carefully for typos, missing co-authors and their affiliations, terminology, updates of data in tables, or updates of variables in equations. All these have to be clarified with the Topical Editor and therefore have to be included before you submit your revised manuscript. Should your manuscript be finally

accepted it will not be possible to include such rather substantial changes anymore when your manuscript is in final production (proofreading).

Please note that all Referee and editor reports, the author's response, as well as the different manuscript versions of the peer-review completion (post-discussion review of revised submission) will be published if your paper will be accepted for final publication in GMD.

You are invited to monitor the processing of your manuscript via your MS overview at:
https://editor.copernicus.org/GMD/my_manuscript_overview

In case any questions arise, please do not hesitate to contact me. Thank you very much for your cooperation.

Kind regards,

The editorial support team
Copernicus Publications
